

main.c

Share Run

```
1 #include <stdio.h>
2 int main() {
3     long long s;
4     printf("Enter seconds: ");
5     scanf("%d", &s);
6
7     long long y = s / (365 * 24 * 3600); s %= 365 * 24 * 3600;
8     long long m = s / (30 * 24 * 3600); s %= 30 * 24 * 3600;
9     long long d = s / (24 * 3600); s %= 24 * 3600;
10    long long h = s / 3600; s %= 3600;
11    long long min = s / 60; s %= 60;
12
13    printf("%d years, %d months, %d days, %d hours, %d minutes, %d
14           seconds\n",
15           y, m, d, h, min, s);
16    return 0;
17 }
```

JS

Output

Clear

Enter seconds: 1283718278
40 years, 8 months, 17 days, 20 hours, 24 minutes, 38 seconds
